

For Immediate Release  
4/22/2008

**PC Synergy and enVista Bring You Total Shipment Visibility**  
***Continued Innovation in Mail and Parcel Center Technology***

**San Marcos, CA - 4/22/2008-** In another move to bring the best technology to retail mail and parcel centers, PC Synergy, together with enVista is offering 30 free days of total shipment visibility to PostalMate users.

Shipment visibility is more than collecting guaranteed service refunds. Shipment visibility is knowing how a carrier is performing, watching for events that cut into the margin of a mail and parcel center and getting information in time to proactively contact customers if something goes wrong. The mail and parcel center using a total shipment visibility service has an immediate leg above their competition. Many PostalMate users report saving hundreds of dollars a month.

PostalMate users who would like more information on the enVista service can visit [www.pcsynergy.com](http://www.pcsynergy.com) or [www.myshipinfo.com](http://www.myshipinfo.com).
